Objective

A dedicated Software Developer driven by creativity, innovation and a continuous quest for proficiency. Every project I pursue is a journey of exploration, dedication, and a drive for excellence.

Highlights of Qualifications

Frontend Development: Transforming designs into interactive experiences, optimized for speed and scalability.

Technologies: Javascript, Nuxt.js, Vue.js

Backend Development: Building and maintaining robust server-side logic, ensuring data integrity and seamless integration.

Technologies: Python, Django & Django REST framework

Web Motion Design: Elevating web designs with fluid animations and transitions, enhancing dynamics user engagement.

Technologies: CSS3 Animations, Tailwind CSS

Automation: Designing scripts and bots to automate repetitive tasks, streamlining processes for efficiency.

Technologies: Python, Playwright, Selenium

Certifications

Programming in C++

Tehran Institute of Technology

Programming in Python

Tehran Institute of Technology

Education

Ontario Tech University

Expected Graduation: 2026

Bachelor of Software Engineering

Oshawa, ON

Recent Projects

Dine Discover - Full-Stack Developer | Vanilla JS, Django Jun 2023 - Sep 2023

- Engineered a restaurant discovery platform with user authentication, review systems, and search functionalities.
- Developed both front-end interactivity and back-end stability, gaining a strong grasp of full-stack development.
- Refined problem-solving and design skills, achieving a user-friendly interface and efficient code structure.

Portfolio Website - Project Lead/Owner | Nuxt.js, Vue.js Aug 2023 - Present

- Developed a highly interactive portfolio with transition effects and scroll-based animations to showcase development skills and projects.
- Focused on responsive design and performance, enhancing the end-user experience and site efficiency.
- Leveraged modern web technologies to create a site that stands out, facilitating professional networking and opportunity engagement.

Work Experience

Cashier

April 2023 – Present

Pizza Nova, Richmond Hill, ON

- Developed strong communication skills by effectively interacting with a diverse range of customers on a daily basis.
- Demonstrated problem-solving skills by addressing and resolving customer complaints or order discrepancies.
- Improved time-management skills by multitasking in a fast-paced environment, balancing both customer service and operational responsibilities.
- Collaborated with a team to ensure smooth store operations, emphasizing teamwork and collaboration skills.
